

Warsaw, 2018-07-31

To whom it may concern:

It's my pleasure to recommend Israel Martinez. His performance working for Funkciona Architekci proved that he can be considered a good candidate for any vacant as an Architect.

I have known Israel in my capacity as Architect Partner at Funkciona Architekci. He joined our team in May 2017, for a 1 year and 3 months period. From the beginning he has proved to be a trustworthy and hardworking person, getting involved with each stage of the project.

He carried out the functions of an Architect. Apart from this, his work was crucial in the bill of quantities department, since it helped greatly in the resolution and verification on site of the different parts executed by the agents involved in the construction.

He also highlights his work within the project consulting section, especially for those carried out in Warsaw, such as: offices of Huawei in collaboration with Aecom where he worked as an indispensable support for the development of the final project, logistic warehouses for Zara.com in Strykow project in which he developed coordination tasks for the execution of the work on the site and establishments for brands such as INDITEX and LC WAIKIKI, making data collection, preparation of documentation and coordination for its final execution to name just a few examples.

He is a responsible and dynamic person, fully committed to his duties and with great ability and willingness to learn fast. Furthermore, his ability and predisposition to work in a team is remarkable.

If his performance in our company is a good indication of how he would perform at yours, he would be an extremely positive asset to your program.

If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.

Yours Sincerely,

Miguel Muñoz
Architect Partner
